JAPANESE PREMIUM FRUIT  
MANGO SAKE

The mango is one of the three most beautiful fruits in the world, and is considered one of the world's most representative fruits. With the increasing distribution of domestically produced ripe mangoes, it has become a familiar fruit. The type of mango grown mainly in Miyazaki, Okinawa, and Kagoshima prefectures is called "apple mango" and is characterized by its rich sweetness.

We use Indian and Mexican mangoes in our liqueurs. We sometimes make special products using only domestic mangoes, but our standard products are made with Indian or Mexican mangoes.

Size	720ml	Bottle per Case	12 Bottle
ABV	7% ABV	Best Before	20 months
