Comment	<p>Sweet summer. Hassaku. Navel. Lemon, each with its own unique flavor, are combined to create a crisp, sweet and sour taste. Recommended to drink on the rocks or with soda.</p> <p>Packed with the bounty of the Setouchi sun Many citrus fruits encountered in Setouchi. They are all unique and delicious! We wanted to commercialize each of them! But what if we tried mixing them all together to express the sun-filled Setouchi area? We created a sake that expressed the qualities of all four types of citrus fruits and blended them in various ways. The goal was to create a sharp, sharp, sweet and sour taste that I felt when I ate freshly picked citrus fruits in the field. And juiciness. The pulp and skin of course have their own unique aroma and flavor, so I tried to include all of the juice, pulp, and skin. The juiciness of navel, the bitterness of sweet summer, the subtle sweetness and acidity of Hassaku, and the refreshing acidity of lemon. We believe we have succeeded in creating a liqueur that expresses the best of each.</p> <p>Recommendations for drinking We are confident that you will enjoy this liqueur by mixing it with soda at a ratio of about 1:1 and enjoying its refreshing acidity, or by adding a little to beer to make a refreshing beer cocktail. Kankan™ is packed with the flavor of early spring from the Seto Inland Sea. Like the other Yoshino Monogatari series, we put in plenty of pulp, fruit peels and juice, so we think it is unique in that it does not become thin even when served on the rocks.</p>
